

**DECLARATION OF SUZANNAH J. ROWLAND**

I, Suzannah J. Rowland, hereby declare that I am currently an employee of the law firm of THOMPSON & HOWISON, L.L.P.; that I was employed by the firm of THOMPSON & HOWISON, L.L.P. on January 11, 1999; and that I was responsible for preparation and assembly of the continuing application that was filed bearing the title "METHOD AND APPARATUS FOR DISTRIBUTING PAGES TO INDIVIDUAL PRINT ENGINES IN A MULTIPLE PRINT ENGINE" on January 11, 1999, now U.S. Patent Application Serial No. 09/228,872.

As part of my employment description, it is my responsibility to ensure that all documents accompanying the filing of such an application are prepared and accounted for. While preparing the continuing application now bearing Serial No. 09/228,872, it was necessary to count the number of pages contained in each section of the application, as our transmittal form lists the number of pages of the true copy at number 10. For this application, I counted twenty-eight (28) pages of drawings. Further, as a general practice, I count every document that is to be included in the express mail envelope and make a notation of the number of pages directly on the post card that is also sent with the application. Again, I counted twenty-eight (28) pages of drawings.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issue thereon.
